

Sir Winston Churchill Provincial Park

Welcome to Alberta's only island park. Sir Winston Churchill Provincial Park in Lac La Biche is fortunate to be surrounded by a 300 year old forest and sandy beaches. Not only is this a great location for family getaways, it is renowned for its outstanding bird watching. While you are visiting, be sure to check out the interpretive programs.

Trails

The 2.5 kilometre Long Point Trail takes you through the various vegetation types on the island, to the westernmost tip. Along the way, see unparalleled views of Lac La Biche.

Boardwalk Trail is 1.2 kilometres long and goes through the 300 year old-growth boreal forest. Because of its island location, this forest was untouched by forest fires that have naturally occurred elsewhere in the area.

Old Growth Alley, a perimeter trail around the edge of the island, connects Long Point and Boardwalk trails with the extensive network of utility trails and the main trail along the causeway.

All of the park's trails are designed for hiking; however, some are appropriate for mountain biking in fair weather.

Note: Off-highway vehicles and snowmobiles are not permitted in the park.
